

## PB34 3:1" Manual Wire Punch & Closer

### Wire Punch/Closers

#### PDC PB34 Punch Closer (3:1) Manual Wire Binding Machine Manual Punch & Bind

The PDC PB34 wire binding machine is a robust entry level Wire punch and closer, its compact design and all steel construction makes it a suitable machine for general office use or as a back up machine in any busy printroom. The 3:1" punch pattern allows documents of up to 120 pages to be created. Further functionality allows for A5 and A3 documents to be punched and bound.

### Features and Benefits

- **Adjustable side lay:** Allows for easy and accurate paper place alignment.
- **Size Guide:** An internal size guide allows the operator to choose the correct wire size.
- **A4/A5 Selector Pin:** A centrally positioned selector pin allows quick change between A4 and A5 paper sizes.
- **Wire Closer:** The integral wire closer will close all wire sizes from size 3 through to size 16.
- **Anti Slip Base:** The rubber base to the PB34 stops any slippage of the machine when in use as well as being removable when the paper chips need removing.

### Technical Specification

Dimensions	500 (W) x 150 (H) x 400mm (D)
Weight	9 Kgs
Power Requirements	-
Safety Approvals	CE
Operation	Manual
