

# PB2600 Electric Comb Closer

## Comb Closers

### GBC PB2600 Comb Binding Machines - Comb Closer

Electric Comb Binding is simple using the PB2600. Simply dial in the size of Comb that you are using, press the bind button once to open the Comb, load the paper, press the bind button again and the Comb closes and you remove your finished document. Its simplicity and ease of use makes the PB2600 a firm favourite with busy printrooms and the occasional user alike.

## Features and Benefits

- **Electric Binding:** Gives you greater convenience and binding speed.
- **Adjustable Binding Knob:** Memory allows exact setting for the opening position of the Comb with fine adjustment capability.
- **LED Display:** Illuminated size guide allows the user to quickly determine the recommended opening position or their binding element.
- **Button Activated Binding:** Electrically opens and closes with the touch of a button. Lightly tapping the button allows user to incrementally close the binding element, making larger documents easier to bind
- **Foot Pedal Binding:** Fully opens and closes the binding element for efficient hands – free binding. Tapping the dual position foot pedal allows the user to incrementally open or close the binding element for easy loading of pages.
- **Exclusive “No Flip” Spine Stoppers:** Prevent large binding elements from flipping forward during operation. All Metal Construction: All metal construction, including aluminium diecast sides, provides longer life and greater durability
