

# AP300 Auto Punching System

## Auto Punching Equipment

The **Renz AP300 Auto Punch** is a Heavy-duty, floor standing, automatic punch machine, for small to medium runs. Strong and reliable German engineered punching dies with a working width of 300 mm. Available in a wide range of different punch patterns. QSA (Quick Size Adjustment) technology allows the quick cancellation of punching pins without the need to remove the die.

### Features and Benefits

- **Automatic punching process**
- **Two finger paper pick-up system:** Allows mixed paper stocks to be handled more easily.
- **Large waste tray:** Can be easily removed from the front.
- **Deep pile feeder:** With high prestack capacity up to 4.000 sheets.
- **Deep pile paper output:** With high capacity up to 4.000 sheets.
- **Fast die and format changes**
- **Touch screen assisted set-up process**
- **Wheels:** Allow the machine to be moved
- **QSA (Quick Size Adjustment):** For high flexibility of different paper formats
- **Low noise level:** 65db A

### Technical Specification

Dimensions	1.420 x 812 x 1.326 mm
Weight	380 kg
Power Requirements	230V-50Hz / 0.9kW 115V-60Hz / 0.9kW
Mechanical cycles per hour	3.600
Min. punching width	148 mm
Max. punching width	300 mm
Min. unpunched length	148 mm
Max. unpunched length	300 mm
Max. punching thickness	1,2 mm
Punching operation	Automatic
Punch dies available	3:1, 2:1 ring wire, coil, plastic comb
Selectable punch pins (QSA)	Yes
Die changeover time	1,5 min.
