

3000 QS Auto Inserter - A3 Model

Quick Setup Automatic Coil Inserter/Finishing System

The PDC 3000 QS - Quick Setup Auto Coil Inserter / Finishing System

- Automatically inserts pre-cut lengths of coil into the pre-punched book and simultaneously crimps both ends - all in a single poperation! No tools are required for basic setup and changeover.

Features

Comes Complete:

- Set of 15 Spine Formers
- Tool Kit
- Photo Instruction Manual & Instructional DVD

Productivity

- As high as 600 books/hour

Available in .2475" OR 4:1 OR 6 mm Pitch

- For diameters from 6 mm to 20 mm

Recommended Wider 3:1 OR 2.5:1 Pitch

- For larger diameters up to 30 mm

Coil Capabilities

- 6 mm through 20 mm
- Up to 30 mm in wider pitch options

Available Formats

- 12"/A4 model
(Binding edges from 5" to 12"/12.7-30.5 cm)
- 17"/A3 model
(Binding edges from 5" to 17"/12.7-43 cm)

Offcut Disposal Chute

Foot Pedal Actuated

Benefits

- QS – Quick Setup – no tools required for basic setup and changeover.
- Vertical book placement can accommodate tabs or wider covers
- Consistent simultaneous crimping of both coil ends.
- Low maintenance design – No need for expensive service contracts.
- Mounted on casters for easy movement.
- Can be interlined with the PLASTIKOIL® New Concept Former for in-line coil manufacturing and automated insertion.

Tech Specs

- 110 V OR 220 V Single phase
- Compressed Air required 80 psi @ 2 cfm
- CE Compliant
- Dimensions 36"W x 24"D x 42"H
(92 cm x 61 cm x 107 cm)
- Net Weight – 190 lbs. (86 kgs)

Innovative coil diameter adjustment provides for proper carriage positioning

Vertical book placement has gravity working to it's advantage.

Built-in Coil Sizing Gauge

The 3000 QS offers a built-in coil sizing gauge to help the operator confirm the diameter of coil required in relation to the book's thickness.

Vertical Book Placement

The 3000 QS has gravity working to its advantage. The pre-punched book is positioned in the machine on its spine so tabs or wider covers are no problem.

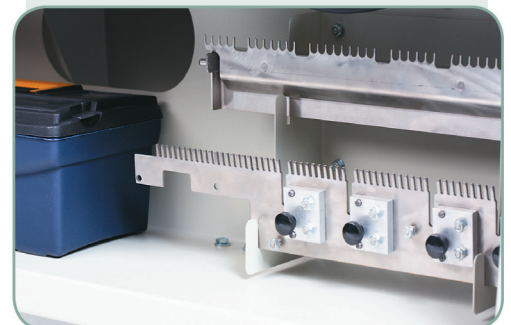

Coil Diameter Changeover

QS means "Quick Setup". The 3000 QS does not require tools for basic setup and changeover. The unit's innovative coil diameter adjustment provides easy and accurate carriage positioning.

Built-in Spine Former Storage

Spine formers are what the pre-punched book sits on when it is positioned in the machine. The spine formers correspond to the diameter of coil being used. The spine formers are securely stored across the front of the QS.

Convenient Storage

A built-in storage rack for optional pitch platen/comb changeover kits and the QS tool kit. Very convenient!

Interline Capabilities

As your coil requirements grow, so can your equipment system. The 3000 QS can be interlined with the PLASTIKOIL New Concept Former to expand your capabilities to include in-house coil manufacturing with automated finishing. A Concept QS Single Interline is the Former connected to one 3000 QS. The Concept QS2 Dual Interline is one former interlined with two PBS 3000 QS Auto Inserters. A modular design that grows with you.
